"It's been an exciting journey that part from afar, from the competition designed and promoted by Quartarella, with the theme of decorating tiles of large size. We immediately joined with enthusiasm to the contest of Irene Quartarella sharing the spirit and meaning. Today at a distance of months, this path done together rewards us for the effort, and I want to point out the "we" because behind all this work there has been a great "teamwork", to testify that the best results can be reached with the participation of people who share the same passion and goals. Thanks to my boys of Ornamenta that every day they bring forward with me this project for the past 4 years, thanks to Renee and Alessio because it's been a pleasure and an honor to work together. Congratulations once again to Alessio for his original idea, we chose his idea, and today we can say that we were not wrong. A huge thanks also to all the other participants of the contest. "
